CHEMISTRY	Chapter 1: Atomic Structure – Important Questions
-----------	---

Abhishek Gp Dumka

Chapter 1: Atomic Structure

1. What are the different types of valency? Explain with suitable examples.
2. Explain orbitals. Also explain Aufbau's principle for filling up the orbitals.
3. Discuss Bohr's atomic theory and mention its limitations.
4. What are the four quantum numbers? Explain each of them.
5. Define Aufbau's principle.
6. What is valency? What are the types of valency? Explain with examples.
7. Define Hund's rule and Aufbau's principle with suitable examples.
8. Explain the formation of the following compounds using proper symbols and electronic configuration.
9. Write the difference between electrovalent and covalent compounds.
10. Write short notes on: (a) Isotopes (b) Isobars (c) Isotones.
